Appendix A

Detailed Tables

Appendix A; Detailed Tables

Table No.	Title
1	Number of FSU (villages/ blocks/sub-units), households and persons surveyed for each State/ UT
2	Percentage distribution of household and population in TUS 2019 for each State/UT
3	Percentage distribution of persons of age 6 years and above by relationship of the informant with the household member for each day of week
4	Percentage of persons of age 6 years and above in different 3-digit/ 2-digit/ 1-digit activity code of TUS activity classification in a day as major activity (considering only the major activity of the time slots)
5	Minutes spent in a day on an average per participant of age 6 years and above in different 3-digit/ 2-digit/ 1-digit activity code of TUS activity classification as a major activity (considering only the major activity of the time slots)
6	Percentage of persons of age 6 years and above in different 3-digit/ 2-digit/ 1-digit activity code of TUS activity classification in a day irrespective of whether it is a major activity or not (considering all the activities in a time slot)
7	Minutes spent in a day on an average per participant of age 6 years and above in different 3-digit/ 2-digit/ 1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot)
8	Minutes spent in a day on an average per person of age 6 years and above in different 3-digit/ 2-digit/ 1-digit activity code of TUS classification irrespective of whether it is a major activity or not (considering all the activities in a time slot)
9	Percentage of persons of age 6 years and above in unpaid activities, paid activities and other activities as a major activity (considering only the major activity of the time slots)
10	Minutes spent in a day on an average per participant of age 6 years and above in unpaid activities, paid activities and other activities as a major activity (considering only the major activity of the time slots)
11	Minutes spent in a day on an average per person of age 6 years and above in unpaid activities, paid activities and other activities as a major activity (considering only the major activity of the time slots)
12	Percentage of persons of age 6 years and above in unpaid activities, paid activities and other activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)
13	Minutes spent in a day spent on an average per person of age 6 years and above in unpaid activities, paid activities and other activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)
14	Minutes spent in a day on an average per participant of age 6 years and above in unpaid activities, paid activities and other activities irrespective of whether it is a major activity or not (considering all the activities in a time slot)

Table No.	Title
15	Percentage of persons of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification where the activity was a major activity (considering only the major activity of the time slots) for different usual principal activity status of the person
16	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification where the activity was a major activity (considering only the major activity of the time slots) for each usual principal activity status of the person
17	Percentage of persons of age 6 years and above in different 2-digit activity code of TUS activity classification in a day irrespective of whether it is a major activity or not (considering all the activities in a time slot) for each usual principal activity status of the person
18	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) for each usual principal activity status of the person
19	Percentage of persons of age 6 years and above in different 2-digit/ 1-digit activity code of TUS activity classification as major activity (considering only the major activity of the time slots) in a day for each marital status of the person
20	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/ 1-digit activity code of TUS activity classification as major activity (considering only the major activity of the time slots) for each marital status of the person
21	Percentage of persons of age 6 years and above in different 2-digit/ 1-digit activity code of TUS activity classification in a day irrespective of whether it is a major activity or not (considering all the activities in a time slot) for each marital status of the person
22	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) for each marital status of the person
23	Percentage of persons of age 6 years and above in different 2-digit/ 1-digit activity code of TUS activity classification as major activity (considering only the major activity of the time slots) in a day for different UMPCE quintile classes
24	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification where the activity was done as a major activity (considering only the major activity of the time slots) for different UMPCE quintile classes
25	Percentage of persons in different 2-digit/ 1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) in a day for different UMPCE quintile classes

Table No.	Title
26	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) for different UMPCE quintile classes
27	Percentage of persons of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification where the activity was a major activity (considering only the major activity of the time slots) for different level of education
28	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification where the activity was performed as a major activity (considering only the major activity of the time slots) for different level of education
29	Percentage of persons of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) for different level of education
30	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) for different level of education
31	Percentage of persons of age 6 years and above in different 2-digit/ 1-digit activity code of TUS activity classification as major activity (considering only the major activity of the time slots) in a day for different household social groups
32	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification where the activity was done as a major activity (considering only the major activity of the time slots) for different household social groups
33	Percentage of persons of age 6 years and above in different 2-digit/1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) in a day for different household social groups
34	Minutes spent in a day on an average per participant of age 6 years and above in different 2-digit/ 1-digit activity code of TUS activity classification irrespective of whether it is a major activity or not (considering all the activities in a time slot) for different household social groups
35	Percentage of persons and minutes in a day spent on an average per participant of age 6 years and above in SNA activities, Non-SNA activities and residual other activities where the activity was a major activity (considering only the major activity of the time slots) for each broad principal activity status
36	Percentage of persons and minutes spent in a day on an average per participant of age 6 years and above in SNA activities, Non-SNA activities and residual other activities irrespective of whether it was a major activity or not (considering all the activities in a time slot) for each broad principal activity status
37	Percentage of persons and minutes in a day spent on an average per participant of age 6 years and above in SNA activities, Non-SNA activities and residual other activities where the activity was a major activity (considering only the major

Table No.	Title
	activity of the time slots) by type of the day
38	Percentage of persons and minutes spent in a day on an average per participant of age 6 years and above in SNA activities, Non-SNA activities and residual other activities irrespective of whether the activity was a major activity or not (considering all the activities in a time slot) by type of the day
39	Percentage of persons of age 6 years and above in different unpaid and paid activities where the activity was a major activity (considering only the major activity of the time slots) by place of activity
40	Minutes spent in a day on an average per participant of age 6 years and above in different unpaid and paid activities where the activity was a major activity (considering only the major activity of the time slots) by place of activity
41	Percentage of persons and minutes spent in a day on an average per person /per participant of age 6 years and above in unpaid activities, paid activities and other activities where the activity was a major activity (considering only the major activity of the time slots)
42	Percentage of persons and minutes spent in a day on an average per person/per participant of age 6 years and above in unpaid activities, paid activities and other activities irrespective of whether the activity was a major activity or not (considering all the activities in a time slot)
43	Percentage of persons and minutes spent in a day on an average per person/per participant of age 6 years and above for each household social group in unpaid activities, paid activities and other activities where the activity was a major activity (considering only the major activity of the time slots)
44	Percentage of persons and minutes spent in a day on an average per person/per participant of age 6 years and above for each household social group in unpaid activities, paid activities and other activities irrespective of whether the activity was a major activity or not (considering all the activities in a time slot)
45	Percentage of persons of age 6 years and above spending most of the time (out of the total time spent on 1-digit TUS activity codes 1 to 5) in each 1 digit TUS activity code and the average time spent on each such activity per participant per day as major activity (considering only the major activity of the time slots)
46	Percentage of persons of age 6 years and above performing multiple activities among those spending most of the time in 1-digit code of TUS activity classification out of the total time spent in 1-digit TUS activity classification codes 1 to 5 as a major activity

Table (1): Number of FSU (villages/ blocks/sub-units), households and persons surveyed for each State/ UT
